

ELECTRIC HAND DRYERS

KALIECO

☞ photocell operation

DESCRIPTION:

Functional and robust, it guarantees a long operation life. Thanks to its powerful motor, it ensures a constant temperature of the warm air and complete hand drying in only 30 seconds.

Elegant and modern, it perfectly fits any environments and satisfies even the most "demanding" requests.

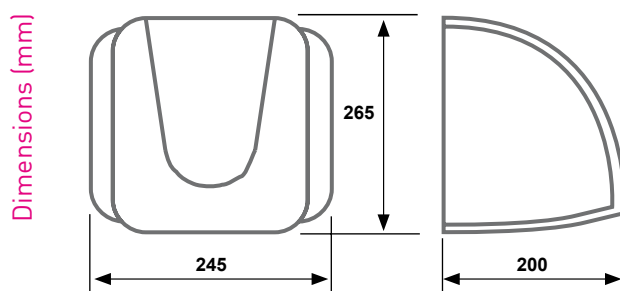

MAIN FEATURES:

- Photocell functioning.
- Cover in heat-resistant, shock-proof ABS.
- Cover closure system with screws.
- Support frame in fireproof ABS.

IPX1 Cl.I CE
